
INVITATION TO SATELLITE SYMPOSIUM

Novel Treatment Strategies and Perioperative Management in Haemophilia B

Wednesday 16 September 2026, 12:30–13:15

We would like you to join us at our satellite symposium during the NordCoag conference at Karolinska University Hospital, Sune Bergström Aula (building J3:06).

Víctor Jiménez-Yuste, Professor of Medicine at the Universidad Autónoma de Madrid, focuses his research on both congenital and acquired haemophilia. In his two lectures, he will address unmet needs in haemophilia and anti-TFPI treatments.

TIME: 12:30–13:15 on 16 September

Given the limited capacity (25 places), we aim to ensure the meeting primarily benefits healthcare professionals and researchers and will, where possible, prioritise registrations from this group. Thank you for your understanding. If you are registering from outside this group, we may need to confirm availability closer to the event.

A warm welcome!

To get the latest agenda, visit **www.nordcoag2026.se**

12:30–12:35	**Welcome and introduction** *Moderator: Göran Klement*
12:35–12:45	**Unmet needs in Haemophilia B and rationale for novel therapies** *Speaker: Víctor Jiménez-Yuste*
